COACH'S OBSERVATIONS

For the rookies:

Be patient and be persistent. The soreness you are experiencing will pass. Soon you will be running distances you once thought were unimaginable. The more miles you run and the more often you run, the better runner you will become. Get out the door and run, run a lot. The results of your efforts might not be immediately evident, but the physiological benefits of your training are real and you will become faster, stronger, and tougher.

For the veterans:

Take care of the little details: Ice after practice, stretch after your runs, do your stride outs, when doing abs- use your abs, eat your greens, get nine hours of sleep each night, wash your hands frequently, stay healthy, etc. Use your time with us to get better. When you come to practice, be focused on using that workout to improve as a distance runner. Do not just go through the motions, rather be intense and in tune.

APOLLO- Varsity- this is a workout. The meet is on Saturday in Wisconsin.

JV- Be smart. 5k races are not won in the first 1000, but they can be lost then. Focus and drive the last 2K.

JR. HIGH- Your race is only 1.5 miles. That can still be a long way if you go out foolishly (and some of your competitors will- so make them pay), but you do not have as much time to move up... Find a balance.

MARSHFIELD- Top returner is Josh Thorson, a junior from Wayzata. Burnsville has Cole O'Brien at 9:23 and Ahmed Salan at 9:42, Stillwater returns Wayde Hall at 9:32 and Tom Linner at 9:36. LaCrosse Aquinas has a pair of 4:26 runners. Teams- Burnsville is rated 3rd in Minnesota, Stillwater is rated 8th in Minnesota. LaCrosse Aquinas, Whitefish Bay, and Hudson are traditional powers in Wisconsin.

See each other on the course, trust each other, and run for each other. Together you will get it done
